

Roads & Grounds

October 19, 2024

- The roads are in good shape, overall. There have been no significant problems since the last board meeting.
- Seth Trinkle has performed monthly inspection and maintenance of the culverts and ditches. He will return later in fall to blow leaves off roads.
- Ed Wagler will also return to re-grade roads later this fall.
- C&S is prepared to do snow removal as needed this winter.
- The Roads & Grounds budget was pinched by the damage done by the severe storm in June. Tree and brush removal was done by Seth Trinkle, Kevin Collins and some volunteers.
- We lobbied another request for Elkins to be paved in 2025 to Toby Turner with Monroe County.....but are not optimistic.
